

GAME AND TOY CATALOG

MCT - Meb Johnsons Jatto is a company dedicated to the production and wholesale commercialization of games and toys specially designed to develop and improve mental abilities in the human being of all ages.

At this moment, we present four innovative products with quite a range of quality and originality. Nevertheless, this number will increase with our new game models **Broken**, **Obstacle** and **Mandemozin**, in a continuous process of improvement and innovation driven by our commitment to offer new products that satisfy changing consumer demands.

Our final products are thoroughly designed and tested to ensure their conformity to the highest quality standards, both in the production process, and in our packaging and distribution chain.

Our catalog of games and toys presents an easy-to-use, intuitive guideline to select or purchase any of our products. We want to invite any interested person to browse our website (<http://www.juegos-y-juguetes-mct.com/Games-and-Toys-Wholesalers-and-Distributors.html>) and place an order through its online shop.

We strive to offer all the necessary information to satisfy any question or inquiry on our products. In case of difficulty or doubt about any subject or detail described in this website, just consult us through our contact section (<http://www.juegos-y-juguetes-mct.com/Contact.html>).

PRICE:	100,00 € (VAT included)

Microntess is an innovative brain game specially designated to develop mental skills applicable to the field of mathematics, which ultimately contributes to the improvement of education of children and adults.

Requiring just basic mathematical and problem solving skills, this fabulous game intended for up to four competitors helps relax, minimizing stress and improving memory, intuition and a wide range of cognitive abilities related to observation, attention and awareness of multiple viewpoints, involving improvisation and participation in a group, and symbolizing many aspects of social interaction.

With this design, we have tried to offer, not just game, but a recreational way to apply the results of numerous studies carried out by psychologists, pedagogist and other experts in the field education and learning.

TOY ROLLDRAG

<http://www.juegos-y-juguetes-mct.com/Toy--RollDrag.html>

PURCHASING DETAILS

REFERENCE:	02
CATEGORY:	New product.
AVAILABILITY:	International.
MINIMUM PURCHASE:	6.000 €
DELIVERY TERM:	15-45 days.
PRICE:	30,00 € (VAT included)

Manual toy consisting of two handles attached by a cord and a series of movable circles and wing-shaped extensions incorporating fluorescent lights, which produces a fan-like whirling motion.

This toy is designed to stimulate senses and exercise developing muscles in children, although it represents also the kind of solution recommended by medical and health professionals to improve mobility and physical well-being by strengthening muscles in elder people in rehabilitation programs.

GAME DUELOMENTAL

<http://www.juegos-y-juguetes-mct.com/Game--DueloMental.html>

PURCHASING DETAILS

REFERENCE:	03
CATEGORY:	New product.
AVAILABILITY:	International.
MINIMUM PURCHASE:	6.000 €
DELIVERY TERM:	15-45 days.
PRICE:	100,00 € (VAT included)

DueloMental is a brain game appropriate for all ages, which includes 16 token chips, quiz cards and game money called "Chains".

In this stimulating game, players, who start with 100 "Chains", compete for cash prizes moving their tokens around a board depending on the mental quickness and capacity to give the right answers before the opponent in a limited time, which adds entertainment and excitement to this game of rivalry in which players need to accumulate all the tokens and "Chains" to win.

GAME POWERPRESSION

<http://www.juegos-y-juguetes-mct.com/Game--PowerPresition.html>

PURCHASING DETAILS

REFERENCE:	04
CATEGORY:	Product in exposition.
AVAILABILITY:	International.
MINIMUM PURCHASE:	1 unit.
DELIVERY TERM:	15-45 days.
PRICE:	7,890,00 € (VAT included)

This sophisticated competitive game for up to four players, and which includes an oval-shaped table with electronic scoreboard screen and a number of sticks and balls of different colours, bases on an interrelationship among precision, accuracy, capacity of concentration and reaction time to confront other players.

In our continuous process of enhancing and improving the quality and variety of our products, we have dedicated great efforts to develop and bring out on the market this advanced, innovative game, specially designed to offer an excellent option for billiards and large game rooms.
